

## ABOUT US

AMT - Association of Maritime Trainers is the voice for boating education and maritime training to be delivered by professional qualified maritime trainers. The main objective of AMT is to advocate for high standards of boating education and maritime training.

1. Advocating for competency based boat and jetski licence training.
2. Promoting best practices in recreational boat training, safe on water practices and marine environment responsibility.
3. Working with appropriate organisations and authorities to address issues related to the environment, boating safety and boat training.

# QUALITY BOAT & JETSKI LICENCE TRAINING

It's exciting and fun to get behind the wheel of a boat or drive a jetski. If you are 12 to 16 years old or older and living in NSW you can apply for a General Boat Licence or PWC Licence which allows you to drive these vessels.

Obtaining your boat or jetski licence through accredited providers will ensure you get the right training from the start. You will learn safety practices, correct boat handling skills and boating terminology, not just the rules.

## MEMBER PROVIDERS

Our members are dedicated to the promotion of quality boating education and maritime training. They also take on a commitment to maintain AMT's code of practice for safety and quality in training delivery.

## BOAT TRAINING

Professional boat training gives people the skills and information they would not be able to acquire from hands-on experience alone. People with formal training have a deeper depth of knowledge and confidence to make better informed decisions for keeping their crew, passengers and vessel safe.
